

LPG Point POS System

Frontend Design Documentation

Designer ke liye — Step by Step Screen Guide

Project: LPG Point — Gas Cylinder Shop POS

Audience: Frontend Designer

Language: Hinglish (Hindi + English mixed, Pakistani context)

Style: Dark theme — same as demo file (lpg-pos.html)

Stack: Pure HTML + CSS + Bootstrap 5 + Bootstrap Icons

1. Project Overview

Ye ek LPG (gas cylinder) shop ka Point of Sale system hai. Do bhai milke shop chalte hain aur dono ko login karke apna kaam karna hoga. System se cylinder bechna, wapas lena, refill karna, customer ka hisaab rakhna, stock manage karna aur reports dekhna possible hoga.

1.1 Main Features jo Design karni hain

- Login Screen — shop owner login
- Dashboard — aaj ka summary
- New Sale — cylinder bechna
- Return — customer se cylinder wapas lena
- Refill — gas refill karke customer ko dena
- Transactions — sab transactions ki list
- Customers — customer list aur ledger
- Customer Ledger — ek customer ka pura hisaab
- Inventory — har cylinder type ka stock
- Reports — daily/monthly reports aur PDF download

1.2 Design Rules (Zaroori)

- Dark theme follow karo — bilkul demo file jaisi. Colors: #0d1117 background, #161b22 cards, orange accent (#f97316)
- Font: Inter (body), JetBrains Mono (numbers/amounts)
- Bootstrap 5 use karo — koi extra CSS framework nahi
- Sidebar fixed rahega (230px wide) — sirf content area scroll karega
- Har screen mobile pe bhi chalegi (responsive)
- Buttons bade aur clear honge — shop owner easy se tap/click kar sake
- Urdu/Hinglish text fields mein placeholder text: e.g. 'Customer ka naam likhein'
- Toast notifications: success (green), warning (yellow), error (red)

★ **Note:** Demo file (lpg-pos.html) ko reference rakhna — wahi colors, spacing aur component style follow karna hai.

2. Navigation Structure

Sidebar mein yeh menu items honge (top se bottom order mein):

Section	Menu Item	Icon (Bootstrap Icons)
Main	Dashboard	bi-grid-fill
Sales	New Sale	bi-cart-plus-fill
Sales	Return	bi-arrow-return-left
Sales	Refill	bi-droplet-fill
Records	Transactions	bi-receipt
Records	Customers	bi-people-fill
Stock	Inventory	bi-box-seam-fill
Reports	Reports	bi-bar-chart-fill

Sidebar ke bottom mein logged-in user ka naam aur 'Logout' button hoga.

★ **Note:** Sales section mein 3 alag menu items hain — New Sale, Return aur Refill. Pehle demo mein ye sab ek screen pe the, ab alag alag honge.

SCREEN 01 — Login Screen

Purpose

Shop ke owner login karte hain. Do bhai hain — dono ka alag login hoga. Login hone ke baad hi system access hoga.

Layout

Centered card — page ke beech mein. Sidebar nahi hogi is screen pe. Background dark (#0d1117).

Fields aur Buttons

Field / Button	Description / Kya karta hai	Status
🔥 LPG Point Logo + Title	Top pe centered logo aur app ka naam	Optional
Username / Phone	Text input — 'Apna username daalen'	Zaroori ✓
Password	Password input — 'Password likhein' — eye icon se show/hide	Zaroori ✓
Login Button	Orange full-width button — 'Login Karein'	Zaroori ✓
Error Message	Galat credentials pe red toast ya inline error	Optional

Behavior

- Koi 'Register' ya 'Forgot Password' link nahi — seedha login only
- Login hone ke baad Dashboard pe redirect
- Galat password pe: 'Username ya password galat hai!' toast show ho
- Dono users ke credentials hardcoded honge JS mein (simple map)

★ **Note:** Ye ek local shop system hai — complex auth ki zaroorat nahi. Simple JS object mein users store karo.

SCREEN 02 — Dashboard

Purpose

Aaj ka quick summary. Shop owner ek nazar mein dekh sake — kitni sales hui, kitne cylinders out hain, stock kaisa hai.

Layout

Standard sidebar + main content layout. Top mein topbar (title + 'New Sale' button). Phir stat cards, phir 2-column panel row.

Stat Cards (4 cards, 2x2 grid on desktop)

Field / Button	Description / Kya karta hai	Status
Aaj ki Revenue	Total sales amount aaj ka — orange color, Rs format	Optional
Cylinders Out	Abhi customers ke paas kitne cylinders hain — blue	Optional
Refills Today	Aaj kitne cylinders wapas aaye refill ke liye — green	Optional
Low Stock Alert	Kitne items kam hain (< 25% stock) — red	Optional

Panels (2 column)

- Left: 'Recent Transactions' — last 5 transactions ki table (Customer, Type, Item, Amount)
- Right: 'Stock Overview' — har cylinder type ka progress bar with qty/max

Topbar

- Left: 'Dashboard' heading + aaj ki date (e.g. 'Mangalwar, 16 June 2026')
- Right: Green 'Live' badge + Orange '+ New Sale' button

SCREEN 03 — New Sale — Cylinder Bechna

Purpose

Customer ko cylinder sell karna. Ek clean single form hoga. Pehle demo mein Sale aur Refill ek saath the — ab Sale alag screen pe hai.

Layout

Single centered panel (max-width ~600px) ya full-width panel. Ek column form.

Form Fields

Field / Button	Description / Kya karta hai	Status
Customer Name	Autocomplete input — type karo ya dropdown se select karo existing customer. '+' button se naya customer add kar sakte hain	Zaroori ✓
Phone	Auto-fill hoga agar existing customer select hua. Manually bhi likh sakte hain	Optional
Cylinder Type	Dropdown: 11 KG, 5 KG, 45 KG Commercial, HOB Mini	Zaroori ✓
Qty	Number input, default 1, minimum 1	Zaroori ✓
Unit Price (Rs)	Auto-fill hoga type select karne pe. Edit bhi kar sakte hain	Zaroori ✓
Total (calculated)	Read-only display — Qty x Price. Bold orange text mein	Optional
Payment Method	Dropdown: Cash, EasyPaisa, JazzCash, Udhaar (Credit)	Zaroori ✓
Process Sale Button	Orange full-width button — 'Sale Karo' ya 'Process Sale'	Zaroori ✓

After Sale

- Receipt modal automatically open hoga
- Success toast: 'Sale ho gayi! Rs X 🎉'
- Form clear ho jayegi
- Stock automatically minus ho jayega

SCREEN 04 — Return — Cylinder Wapas Lena

Purpose

Jab customer apna khali cylinder wapas karta hai (bina gas ke). Inventory mein cylinder wapas aa jata hai. Is mein koi charge nahi hota usually.

Form Fields

Field / Button	Description / Kya karta hai	Status
Customer Name	Autocomplete — existing customer select karo. System check karega us customer ke paas kaunse cylinders out hain	Zaroori ✓
Phone	Auto-fill	Optional
Cylinder Type	Dropdown — sirf woh types show karein jo is customer ke paas out hain	Zaroori ✓
Qty	Maximum = jo us customer ke paas out hai us type ka	Zaroori ✓
Condition	Dropdown: Good ✓, Damaged △, Leaking ●	Zaroori ✓
Note	Optional text — koi remark likhna ho to	Optional
Record Return Button	Blue button — 'Wapas Lijiye'	Zaroori ✓

Validation

- Agar customer ke paas us type ka koi cylinder out nahi to error: 'Is customer ke paas koi 11 KG cylinder nahi!'
- Qty us se zyada nahi honi chahiye jo out hai

After Return

- Return receipt modal open hoga (printing ke liye)
- Inventory mein cylinder wapas add ho jayega
- Customer record update ho jayega

SCREEN 05 — Refill — Gas Bharwana

Purpose

Customer apna khali cylinder leke aata hai gas bharwane ke liye. Charge liya jata hai (refill fee). Cylinder wapas fill hokar customer ko diya jata hai. Inventory mein count change nahi hota (cylinder wapas milta aur deta hai).

Form Fields

Field / Button	Description / Kya karta hai	Status
Customer Name	Autocomplete input + add customer button	Zaroori ✓
Phone	Auto-fill ya manual	Optional
Cylinder Type	11 KG, 5 KG, 45 KG, HOB Mini	Zaroori ✓
Qty	Kitne cylinders refill karne hain	Zaroori ✓
Refill Charge (Rs)	Kitna charge liya — manual input	Optional
Payment Method	Cash, EasyPaisa, JazzCash, Udhaar	Zaroori ✓
Note	Optional remark	Optional
Process Refill Button	Green button — 'Refill Karo'	Zaroori ✓

After Refill

- Refill receipt modal open hoga
- Transaction record mein REFILL type se save hoga
- Agar charge > 0 to customer ledger mein bhi entry hogi

★ **Note:** Return aur Refill alag hain: Return = customer cylinder wapas deta hai (no gas, no charge usually).
Refill = customer cylinder gas bharta hai (charge hota hai, cylinder wapas milta hai).

SCREEN 06 — Transactions

Purpose

Sab transactions ki complete list — SALE, RETURN, REFILL. Search aur filter kar sakte hain.

Topbar Controls

Field / Button	Description / Kya karta hai	Status
Search Box	Customer naam, phone, ya TXN ID se search	Optional
Type Filter	Dropdown: All / Sale / Return / Refill	Optional
Date Filter	Today / This Week / This Month / Custom Range	Optional

Table Columns

- # (TXN ID — monospace font, muted color)
- Date/Time
- Customer (naam + phone)
- Type (colored badge: SALE=orange, RETURN=blue, REFILL=green)
- Item (cylinder type)
- Qty
- Amount (Rs — green monospace)
- Payment (cash/easypaisa/etc)
- Action: 👁 button se receipt dekh sako

SCREEN 07 — Customers List

Purpose

Sab customers ki list. Quick overview ke saath — kitna udhaar hai, kitne cylinders out hain. Customer ke naam pe click karke us ka pura ledger dekh sakte hain.

Topbar Controls

Field / Button	Description / Kya karta hai	Status
Search Box	Naam ya phone se search	Optional
Filter	All / Cylinders Out / Has Balance (udhaar)	Optional
+ Add Customer	Orange button — naya customer modal open karega	Optional

Summary Bar (3 mini cards)

- Total Customers count
- Cylinders Still Out (orange)
- Total Returned (green)

Table Columns

- Customer (avatar circle + naam + address)
- Phone
- Cylinders Out (colored chips per type, e.g. '🔱 11KG: 2')
- Returned (total count)
- Balance (udhaar — red agar positive, green agar zero)
- Total Sales (lifetime)
- Last Visit
- 👁 Action button — Ledger detail open kare

SCREEN 08 — Customer Ledger (Modal ya Full Page)

Purpose

Ek customer ka pura financial hisaab. Har transaction show hogi — sale, return, refill, payment received. Outstanding balance dikhega. Receipt generate kar sako udhaar ke liye.

Header Section

- Customer avatar (initial circle) + naam + phone + address
- 4 mini stat cards: Cylinders Out | Total Returned | Outstanding Balance | Total Sales

Ledger Table

Field / Button	Description / Kya karta hai	Status
Date	Transaction ki date/time	Optional
Description	Kya hua — e.g. '11 KG Sale x2', 'Refill Charge', 'Payment Received'	Optional
Debit (Dr)	Customer pe charge — sale/refill amount (red/orange)	Optional
Credit (Cr)	Payment ya return credit (green)	Optional
Balance	Running balance — agar positive to udhaar baaki	Optional

Action Buttons

- 'Payment Receive Karo' — amount enter karo, balance minus ho jayega
- 'Balance Receipt Generate Karo' — printable receipt jisme outstanding amount ho
- 'Print Ledger' — pura ledger print karo

★ **Note:** Ledger mein Dr/Cr format use karo — local dukandaar iske saath familiar hain. Balance column mein agar balance > 0 to red, = 0 to green color.

SCREEN 09 — Inventory

Purpose

Har cylinder type ka current stock dekhna aur per-item restock karna. 'Restock All' button hata dena hai — ab har item ka apna restock hoga.

Layout

Grid of cards — 3 per row (desktop), 1 per row (mobile). Har card ek cylinder type ke liye.

Per-Item Card Content

Field / Button	Description / Kya karta hai	Status
Cylinder Name	e.g. '11 KG — LPG'	Optional
Current Qty	Bada monospace number — green ya red (agar low)	Optional
Max Capacity	Max: 100 likha hoga chota text mein	Optional
Current Price	Rs per unit	Optional
Customers ke paas	Kitne is type ke cylinders customers ke paas out hain	Optional
Low Stock Badge	'⚠ Low Stock!' — sirf tab dikhao jab < 25%	Optional
Progress Bar	Stock level visually — green/yellow/red	Optional
Restock Button	Blue button per card — 'Restock' click karo to modal open ho	Optional
Edit Price Button	Small ghost button — price update karne ke liye	Optional

Restock Modal

- Cylinder type name dikhao
- Current stock dikhao
- 'Kitne cylinder aaye?' — number input
- 'Restock Karo' — green button — stock add ho jayega

SCREEN 10 — Reports

Purpose

Daily aur monthly reports dekhna. Plain, simple format — zyada colorful nahi. PDF download ka option hoga.

Report Type Tabs / Selector

- Daily Report
- Monthly Report
- Inventory Report

Daily Report Content

Field / Button	Description / Kya karta hai	Status
Date Selector	Aaj ya koi bhi past date select karo	Optional
Summary Cards	Total Sales (Rs) Total Transactions Cylinders Sold Refills Done	Optional
Transactions Table	Us din ki sab transactions — same columns as Transactions page	Optional
Payment Breakdown	Cash kitna, EasyPaisa kitna, JazzCash kitna, Udhaar kitna	Optional
Download PDF Button	Gray/ghost button — 'PDF Download Karo'	Optional

Monthly Report Content

Field / Button	Description / Kya karta hai	Status
Month Selector	Month + Year dropdown	Optional
Summary	Total Revenue Total Transactions Best Selling Item New Customers	Optional
Daily Breakdown Table	Har din ki sales — Date Transactions Amount Cylinders	Optional
Top Customers	Is mahine ke top 5 customers by sales	Optional
Download PDF Button	'PDF Download Karo'	Optional

Inventory Report

- Current stock sab items ka
- Kitne cylinders customers ke paas out hain
- Low stock items highlight honge
- PDF download option

★ **Note:** Reports bilkul plain hongi — koi pie charts ya fancy graphs nahi. Simple tables aur numbers. PDF mein bhi same — black text, white background, shop ka naam upar.

SCREEN 11 — Receipts (Print Modal)

Purpose

Teen alag receipts — Sale, Return, aur Refill. Ye sab modals ke andar honge jab koi transaction process ho. Print button se seedha browser print dialog open hoga.

Sale Receipt

Field / Button	Description / Kya karta hai	Status
Shop Header	🔥 LPG Point — Gas Point, address, phone	Optional
Receipt Title	'SALE RECEIPT' — bold centered	Optional
TXN ID + Date/Time	Right aligned	Optional
Customer Info	Naam + Phone	Optional
Items	Cylinder type, qty, unit price	Optional
Subtotal / Total	Bold, large — Rs format	Optional
Payment Method	'Cash' ya 'EasyPaisa' etc	Optional
Footer	'Shukriya! — LPG Point', small text	Optional
Print Button	Window.print() trigger karega	Optional

Return Receipt

- Header same
- 'CYLINDER RETURN RECEIPT' title
- Customer naam, cylinder type, qty, condition
- 'Wapas liya gaya' confirmation text
- Print button

Refill Receipt

- 'REFILL RECEIPT' title
- Customer naam, cylinder type, qty
- Refill charge aur payment method
- Print button

Balance Receipt (Ledger se)

- 'UDHAAR / BALANCE RECEIPT' title
- Customer naam, phone, address
- Outstanding balance amount — bada aur bold
- 'Requested on: [date]' — dukandaar ne kab generate kiya
- Print button

★ **Note:** Print ke liye @media print CSS use karo — sidebar aur buttons hide ho jayenge, sirf receipt content print hoga. Font black, background white.

12. Modals List

Yeh sab modals globally available honge:

Modal ID	Kab open hoga
addCustModal	Jab '+' customer button click ho — Sale, Return, Refill, Customer page se
custDetailModal	Customer list mein 👁 click karo — ledger detail
saleReceiptModal	Har sale ke baad auto open
returnReceiptModal	Return process ke baad auto open
refillReceiptModal	Refill process ke baad auto open
balanceReceiptModal	Customer ledger mein 'Balance Receipt' button
paymentModal	Customer ledger mein 'Payment Receive Karo' button
restockModal	Inventory card mein 'Restock' button
editPriceModal	Inventory card mein 'Edit Price' button

13. Data Structure (JS mein kaise store hoga) (Yeh krna zaroori nai hai)

Designer ko ye pata hona chahiye ke data kahan se aata hai — JS mein in-memory objects use honge (pehli version ke liye):

Users (Login ke liye)

```
{ id, username, password, displayName, role: 'owner' }
```

Customers

```
{ id, name, phone, addr, note, cylindersOut:{}, balance, totalSales, lastVisit }
```

Transactions

```
{ id, custId, type:'SALE'|'RETURN'|'REFILL', item, qty, amount, pay, dt, addedBy }
```

Ledger Entries

```
{ id, custId, dt, desc, debit, credit, balance, txnRef }
```

Inventory

```
{ '11kg': { name, qty, max, price }, '5kg': {...}, ... }
```

14. Design Tokens (Colors aur Fonts)

Variable	Value	Use Kahan
--bg-deep	#0d1117	Page background
--bg-card	#161b22	Cards, panels, sidebar
--bg-panel	#1c2230	Inputs, inner panels
--border	#2a3340	All borders
--accent (orange)	#f97316	Primary buttons, active nav, highlights
--accent2 (blue)	#3b82f6	Secondary buttons, info badges
--accent3 (green)	#22c55e	Success, amounts, returned
--text-main	#e6edf3	Primary text
--text-muted	#8b949e	Labels, secondary text
--danger	#ef4444	Errors, low stock, udhaar balance
--warn	#eab308	Warnings, mid stock

Fonts

- Body text: Inter (Google Fonts) — weights 300, 400, 500, 600, 700, 800
- Numbers aur amounts: JetBrains Mono — weights 400, 600
- CDN: fonts.googleapis.com se load karo

15. Designer Checklist

Sab screens complete karne ke baad yeh check karo:

1. Login screen — centered card, dark bg, logo, username/password, orange login button
2. Dashboard — 4 stat cards, recent txns table, stock overview panel
3. New Sale form — all fields, autocomplete, total calculator, receipt modal
4. Return form — customer cylinder validation, condition dropdown, receipt modal
5. Refill form — separate se, charge field, payment method, receipt modal
6. Transactions page — searchable table, date filter, receipt view button
7. Customers list — table with balance column, udhaar filter, add customer modal
8. Customer Ledger — Dr/Cr table, running balance, payment modal, balance receipt
9. Inventory — per-item cards, restock modal, edit price modal, NO 'Restock All' button
10. Reports — daily/monthly/inventory tabs, plain tables, PDF download button
11. All receipt modals — Sale, Return, Refill, Balance (print-ready @media print)
12. Sidebar — all 8 menu items, logged-in user at bottom, logout button
13. Toast notifications — success (green), warning (yellow), error (red)
14. Responsive — mobile mein sidebar hide, content full width
15. Hinglish text — placeholders aur messages Hinglish mein
